PROFESSIONAL EXPERIENCE

Software Laboratory Center, BINUS University — **Jakarta, Indonesia**
Laboratory Assistant — **Sep 2024 – Sep 2025**

- Taught **laboratory subjects** to **700+ students**, handling case-making and correction across **web development, cyber security, AI, networking, desktop apps, design, and data science**.

Fullstack Engineer, Research and Development Staff — **Sep 2025 – Present**

- Built **8 new internal applications and websites** and maintain **25+ existing BINUS platforms** and their production servers, used across **all 7 campuses** by **5000+ users**, covering feature work, bug fixes, and performance tuning.
- Moved **10+ internal repositories** and their pipelines in-house onto self-hosted **Forgejo** with **GitHub Actions** runners, then raised throughput on high-traffic endpoints using **Redis caching** and **RabbitMQ** queues, guided by **performance monitoring**.

BINUS University — **Jakarta, Indonesia**
Software Engineer, Internship — **Aug 2025 – Present**

- Delivered **3 new internal web platforms** from design to production and own their ongoing maintenance, from requirements through release and post-launch fixes.
- Administer production **Linux** servers, covering uptime, patching, runtime upgrades, and routine maintenance.
- Cut release time from **15 minutes of hand-run steps to a 5-minute automated deploy** with **GitHub Actions** CI/CD pipelines, and cut response times on the heaviest endpoints by rewriting hot backend logic and slow **SQL queries**.
- Replaced ad-hoc log inspection during incident triage with **server monitoring, centralised logging, and alerting**.

E-Ducate Coding School — **Pontianak, Indonesia**
Robotics Technician & Tutor — **Nov 2022 – Jun 2023**

- Built the curriculum and taught **Arduino/ESP32** robotics with **Bluetooth, Wi-Fi, sensors**, and **3D printing**; intern to full-time tutor.

PROJECTS

NRX - Multi-Framework Compliance Platform (ITEL, Singapore - Freelance)

- Owned the **full stack** of a web platform that operationalises **multiple compliance frameworks** such as **ISO 27001**, turning clauses into trackable controls with evidence, owners, and gap status.
- Designed the control-mapping and audit-trail services plus the workspace compliance teams work in, with AI matching policies and evidence to requirements.

Hiring System - Internal Recruitment Platform (ITEL, Singapore - Freelance)

- Developed the **full stack** of an AI-assisted hiring platform, covering candidate intake, automated screening, and evaluation.
- Modelled the recruitment pipeline from intake to hiring decision, cutting manual CV review by AI-scoring applicants.

Owl Eyewear Smart Glasses App - Android & iOS (Jakarta - Freelance)

- Shipped **Android and iOS** companion apps for AI-powered smart eyewear with device pairing, connectivity, and hardware control flows.

MisVord - Discord Clone on a Self-Built PHP Framework

- Wrote the **MVC framework, ORM, and REST layer** from scratch rather than using Laravel, then built the real-time chat product on top with **WebSocket** messaging.

Adobe Premiere MCP Server - AI-Driven Video Editing (Open Source)

- Built an **MCP server** driving Adobe Premiere Pro from an AI assistant over **CEP/ExtendScript**, with tools that verify their own writes and grade colour and loudness.

EDUCATION & ACHIEVEMENTS

BINUS University — **Jakarta, Indonesia**
Bachelor of Computer Science, GPA 3.55/4.00 — **2023 – Present**

Best Assistant Award, BINUS Software Laboratory Center

SMKS Kristen Immanuel 1 Pontianak, Vocational High School (Computer & Network Engineering) — **2020 – 2023**
Medallion of Excellence, LKS National 2022 • **Bronze Medallion**, ASEAN Skills Competition 2022 (Mobile Robotics)

SKILLS

Frontend: React, Vue, Next.js, shadcn/ui, Tailwind CSS
Backend: Go, C# (.NET Core), Node.js (NestJS), PHP (Laravel), Python
Infrastructure: Docker, Linux, CI/CD (GitHub Actions, Forgejo), Monitoring & Logging
Data: PostgreSQL, Redis, RabbitMQ, MongoDB
AI/ML: Python, Jupyter, Machine Learning, Deep Learning, NLP, Knowledge Distillation, Quantization, XAI
Spoken Languages: English (Fluent), Indonesian (Native)
